

# EMS Week 2018!

May 20<sup>st</sup> – 27<sup>th</sup>

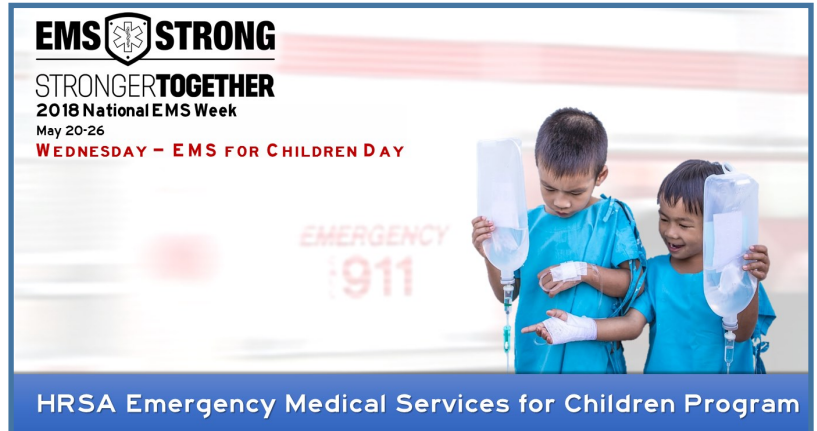

## 200+ Agencies join the PVRP

The Pennsylvania EMS for Children Program would like to say THANK YOU to you and your service for the work that you are doing to improve the care of our youngest patients through participation in the Pediatric Voluntary Recognition Program (PVRP)! To date, we have over 200 participating agencies, a huge success! Great work!

This has been one of Pennsylvania's most recognized programs. Did you know that several other states have implemented similar programs with their EMS agencies based on these successes? Successes which are entirely contributable to you!

Recently, the EMSC program was able to purchase some simple weight conversion (lbs -> kgs) cards for pediatric field reference and I have enclosed some for you here. These have been laminated for durability and cleaning, they can be placed on the interior ambulance wall for easy reference, or placed in a peds bag on your unit, or anywhere you find them useful. If you would like more, please contact the EMS for Children project manager.

Again, we greatly appreciate all of your continued efforts to do great work for pediatrics!

## Safe Transport is now on PA TRAIN!

The PA EMSC program has provided a two-part module on the Safe Transportation of Children in Ambulances to PA TRAIN. From the home screen, use the search bar and type PA-EMS Safe Transport to find the modules. CEU's are available upon completion of both modules. You can also contact our office for an in-person workshop!

*Want to keep up with what EMSC is doing? Find pediatric education? Share pediatric education that your service is hosting? Then be sure to 'like' us on Facebook!*
