

AMLS
Advanced Medical
Life Support

Sponsored by
Sergeant Rescue
Training & Consulting

Dates: 19-20 Jan 2019

Times: 0800-1700

Cost: \$125.00

Location: Penns Valley EMS
106 Ross Hill Rd, Spring Mills PA

NAEMT's Advanced Medical Life Support (AMLS) course is the first EMS education program that fully addresses how to best assess and manage the most common medical crises in patients, offering a "think outside the box" methodology. It is for all levels of practitioners with a strong commitment to patient care, including emergency medical technicians, paramedics, nurses, nurse practitioners, physician assistants, nurse anesthetists and physicians.

The course emphasizes the use of scene size-up, history, interactive group discussion on potential treatment strategies, and physical exam to systematically rule out and consider possibilities and probabilities in treating patients' medical crises. The course offers an initial assessment-based approach that progresses to a diagnostic-based approach to quickly develop the best treatment plan.

Please head to www.SergeantRescueTraining.com for full course details and information.
